21 BOSTON PLACE · MARYLEBONE · LONDON · NW1 6ER

About

We create exquisite furniture that is harmonious and unique: a balance of precisionist lines and natural curves, quiet classicism and a touch of whimsy, designed to treasure, enjoy and amuse.

We have been designing and making furniture in the UK since 2006. Each design is individually produced by teams of exceptionally skilled artisans who wheedle and cajole lux natural materials into a myriad of splendid pieces which are then lovingly hand finished.

We have, over the years, added complementary ranges of fabrics and rugs which can be viewed along with examples of our furniture and finishes in our new showroom in Marylebone, London, or on our comprehensive website.

We are privileged to work with many of the world's finest architects, interior designers and discerning individuals on residential, commercial and nautical projects of all scale.

Show--room

We are proud to announce that we have opened our first permanent showroom, in a pretty converted Marylebone mews, in London.

We sell our made-to-order furniture collection through professional designers based all over the world and welcome designers and their clients to our showroom Monday through Friday, by appointment.

In our showroom, we display a rotating representative range of our collection along with finishing samples, fabrics and rugs. These are indicative of the quality and style of our designs, however, if there is something specific that you would like to view please call ahead.

We also make personalised presentations to design teams in the UK and in the many other global cities we visit. If you are interested in having us present to your design team, please contact us.

All of our furniture created in the UK with traditional methods, the greatest care and the highest quality materials. Most of our designs can be customised in scale and finish. Our current lead-time is 8-14 weeks from order.

We look forward to welcoming you to our new showroom soon!

SMOKING ROOM VELVET

23 Colours

A versatile, high-quality, lustrous cotton velvet available in a wide range of complimentary hues. Developed specifically for upholstery, our Smoking Room Velvet Collection is suitable for both domestic and commercial use, and boasts a superior soft touch in every direction resulting in a tailored, plush sophisticated result, every time.

—

Width: 138cm

Composition: 100% Cotton

Martindale: 65,000

Upholstery Grade: Severe Domestic / Severe Commercial

Fr Rating: BS5852 Part 1 & 2

Ign 1 Match: Schedule 3 FR barrier interliner required to meet the British Domestic Upholstery Fire Safety Regulations

MOHAIR

23 Colours

Glamorous, timeless, robust; our pure wool Mohair velvet imbues drama. Boasting a huge 100,000 rub count our Mohair range is suitable for severe domestic and contract usage, its short thick weave produces superior upholstery results. It is available in a wide range of sensational painterly hues which play with light and shadow, and makes an excellent choice for the upholstery of our pieces.

Finishes

We offer our furniture pieces in a carefully selected range of wood, metal and lacquer finishes. They are designed to co-exist effortlessly in most interior settings and equally with each other, allowing scope for individuality. We also offer a bespoke finish service, details and prices are available on request.

WOOD – SOLID

We typically construct our furniture in solid American black walnut or oak which is available in a number of finishes. If required, we can finish to match a client sample. All of our solid wood finishes are also available as veneers.

WOOD – VENEER

Veneering is a traditional furniture making technique used for thousands of years which affords flexibility of shape and grain direction as well as decorative marquetry. Along with using traditional hardwood veneers we have started to incorporate newer composite veneers which are both visual stunning and ecologically conscious such as our Shima-Shima variegated veneer.

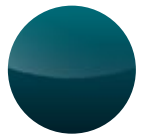
American Black Walnut

HIGH-GLOSS LACQUER

This time-intensive finish involves gradually building up multiple layers of lacquer until a sufficient depth is attained. The surface is then repeatedly hand-sanded until perfectly flat, then hand-rubbed until a mirror-like finish is achieved. We offer this finish in a range of colours and can match to a sample if required.

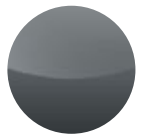


Dragonfly Blue

Grasshopper Green

Ladybird Red

Beetle Black



Spider Grey

METAL – SHEET

Metal details can be specified in one of the following four finishes. Our polished brass finish is not lacquered and will patina naturally over time; it can be brought back to its original lustre through polishing. Nickel is a plated finish and carries an upcharge in most instances.

Brass
Brushed

Brass
Polished (Unlacquered)

Brass
Patinated

Nickel
Polished

METAL – CAST

Our solid cast metal pieces are available to order in three bronze finishes. The beauty of cast metal is its heft and handmade quality. We do not nickel plate our cast pieces, but rather, cast in a special bronze alloy including nickel resulting in our stunning solid "White Bronze."

Bronze
Polished

Bronze
Antiqued

Natural

Please Note: The images shown here are for illustrative purposes only and should not be used as reference for specifying finishes. Please contact our showroom directly to request samples.

UPH-
OLS-
TERY

Our upholstered furniture is rigorously prototyped to ensure that it is both extremely comfortable and remains aesthetically and physically strong for years to come. We practice time-honoured traditional upholstery standards including the incorporation of hardwood internal frames, hand tied springs and the individual hammering of decorative nailing. To insure the perfect blend of comfort and tailoring, we use a mix of feather wrapped foam, full feather or high-density foam cushions and depending on the physical requirements of each design.
